## Editorial Reviews

### Review

"This is a phenomenal addition to the herbal bookshelf. It fills the need for a large, comprehensive herbal formulary—the likes of which we have not seen for a hundred years—yet it is so much more than that: a complete guide to the serious use of herbs from the field and forest to the single remedy or formula in clinic."  
—Matthew Wood, author of *The Earthwise Herbal* books

"This is now the standard medicine-making textbook for schools of herbal medicine. It contains more methods and more forms than anything else in print, all clearly explained and demonstrated, with bonus materials on herbal energetics and *materia medica*."  
—Paul Bergner, director, North American Institute of Medical Herbalism, editor, *Medical Herbalism* journal

### About the Author

Thomas Easley is coauthor of *Modern Herbal Medicine* and founder of the Eclectic School of Herbal Medicine. He is a clinical herbalist and professional member of the American Herbalists Guild. Easley integrates modern science and the deep and rich tradition of Western herbalism into a unified and systematic approach to health and healing. Easley emphasizes foods as primary medicine and uses intensive diets as well as stress reduction techniques, nutritional supplements, and exercise to help people achieve their health goals. His approach draws on his extensive clinical experience, which spans 14 years of full-time practice and over 10,000 clients.

Steven Horne is a professional member and former president of the American Herbalists Guild and a professional member of the International Iridology Practitioner's Association, having also served on the board of directors of both organizations. He has spoken at numerous conventions and conferences and has helped to start four different herbal companies, giving him extensive practical experience in formulating and manufacturing herbal extracts. Horne maintains a part-time consulting practice, working one-on-one with clients to help them resolve their health problems.

### Excellent introduction to herbalism

By [R Beyer](#) on May 13, 2017

Format: Paperback **Verified Purchase**

This is a great introduction for a new herbalist. I recently completed an introductory herbalism course and am very new to the field. The guidance on teas, tinctures and etc. were great for someone new to the terminology and practices. The herb summary was also very helpful.
